

# An art show on ancient and contemporary narratives

**A**n exhibition of the young and remarkable Romanian artist, Radu Oreian, opens this week. Under the title 'Farewell to the Thinker of Thoughts', Oreian assembles new artworks that array from small and medium-sized drawings with graphite, gold leaf and oil to large scale oil paintings on canvas, displaying the broad range of techniques, interests and skills the artist draws upon. The exhibition reflects Oreian's ongoing preoccupation with ancient painting techniques, sacred scriptures, medieval legends and contemporary narratives. It demonstrates his artistic talent that guides the viewer through a
